

**Table 10**  
**Water Rights for Upper and Lower South Truckee Meadows Treatment Plants**  
**6,700 AF combined supply**

<b>Lower Treatment Plant</b>			
	Priority	Duty	
Whites Creek			
715/715a	1858	1,860	
716	1858	1,922	
717	1858	360	
		4,142	
Thomas Creek			
75a	1866	401	
718	1859	381	
719	1859	530	
720	1859	554	
Subtotal		1,866	
Total Water Rights for Lower Treatment Plant		6,008	
<b>Upper Treatment Plant</b>			
Galena Creek Water w/Washoe Lake Storage Rights (winter water)	Priority	Duty	Washoe Lake Shares
673-674	1862	481	15
676-679	1860-65	242	10
684-686	1862-65	558	10
687-688	1863-65	309	w/692-694
689-691	1862-65	265	10
692-694	1862-65	407	20
696-697	1862-65	446	20
700-701	1860-61	748	25
702-706	1860-95	5,977	80
707-708	1862-90	1,416	10
Total Water Rights for Upper Treatment Plant		10,849	200
Total Water Rights for Both Treatment Plants		16,857	
Yield for Galena/Steamboat rights:			
1457 AF in drought year			
7.28 AF/share			
Provides a normal supply of roughly 2,000 AF			
Control of all of these rights is needed to produce the drought year supply, but there will also be a surplus of water in wet years that is available for other purposes.
