SUMMARY

On November 3, 2021, staff presented revisions to the draft update of Chapter 7 “Population Forecast and Projections of Water Demand, Peak Day Requirements and Wastewater Flow” for the 2021-2040 RWMP. Revisions pertained to the Water Balance Map in Section 7.3. The NNWPC accepted the draft chapter as a work in progress and provided for comments from NNWPC members to be submitted by mid-December.

Staff received comments from the Truckee Meadows Water Authority, some of which will affect the Water Balance Map. Staff anticipates incorporating TMWA’s comments into the draft chapter and presenting it to the NNWPC in February 2022.

RECOMMENDATION

Staff recommends that the NNWPC accept this report and direct staff to present an updated draft Chapter 7 at its February 2022 meeting.
